Personal Service Plan

Personal Service Plan

A way of enabling you to avoid the concerns of large service bills by paying a monthly direct debit that is calculated specifically for your requirements.

How does Personal Service Plan work?

Once your plan is set up and your next scheduled service is due, book your service as normal and the cost of the service is paid from your Personal Service Plan fund.

What will it cost?

Your anticipated mileage and period of ownership are entered into the Personal Service Plan system and your monthly direct debit amount is calculated for you based on current parts and labour rates. And of course, your payments are interest free.

What if I change my car?

No problem. Any unused funds in your Personal Service Plan will be refunded to you and a new plan can be calculated for your new car.

How do I apply?

If you have not already been offered a quote, speak to a member of our service or sales team and they will be happy to calculate a plan that meets your individual requirements

And if you like what you see it can be set up for you in just a couple of minutes.

It really is that easy!
